C-Tracks ETNs linked to the Miller/Howard MLP Fundamental Index, Series B (MLPE) To Pay Quarterly Coupon

NEW YORK - The C-Tracks Exchange-Traded Notes Based on the Performance of the Miller/Howard MLP Fundamental Index™, Series B (NYSE Arca: MLPE) will pay a quarterly coupon of \$0.3557 per note on October 11, 2017 to holders of record as of the close of business on October 10, 2017. This coupon reflects the ordinary cash distributions of the MLPs underlying the Miller/Howard MLP Fundamental Index™ net of fees over this past quarter.

Based on their closing price on October 4, 2017 and the declared quarterly coupon, the annualized indicated yield of the ETN is 5.74%. The annualized indicated yield is equal to the declared quarterly coupon multiplied by four, divided by the closing price of the ETN on October 4, 2017¹.

The annualized indicated yield is not indicative of future coupon payments, if any, on the ETN. Holders of the ETN are not guaranteed a coupon. Moreover, the annualized indicated yield does not take into account the effect of changes in the closing price of the ETN on the total return realized by an investor in the ETN. The total return realized by an investor in the ETN will depend on the coupons paid, if any, as well as on fluctuations in the price of the ETN. The price of the ETN may decline, resulting in a negative total return to an investor even if the ETN continues to pay a quarterly coupon. For more information, you should review the pricing supplement for the ETN, which is available at the following hyperlink: [http://www.c-tracksetns.com/MediaLibrary/8a457afe-2f60-4b77-b813-bd1b66e1ef22/CGMHI%20MH%20MLP%20Pricing%20Supplement%20\(MLPE\)%20No.%204%20-%20Final.pdf](http://www.c-tracksetns.com/MediaLibrary/8a457afe-2f60-4b77-b813-bd1b66e1ef22/CGMHI%20MH%20MLP%20Pricing%20Supplement%20(MLPE)%20No.%204%20-%20Final.pdf)

¹ If there is no closing price for the ETN on October 4, 2017, the annualized indicated yield is equal to the declared quarterly coupon multiplied by four, divided by the closing price of the ETN Indicative Value (MLPEN <Index>) on October 4, 2017.

Investing in the ETN involves significant risks. You should read the section entitled “Risk Factors Relating to the C-Tracks” in the pricing supplement for a detailed list of risk factors associated with investing in the C-Tracks.
